

Pt100 sensor Food sensor

Model 7919000, in stock

Construction

Pt100-detector mounted in protection tube with needle tip. Cable entry sealed with silicon and silicon hose.

Example of use

Temperature measurement of food e. g. in smoke-house processes.

Maximum temperature

Probe: 200 °C
Cable: 200 °C

Probe

Article number

7919001-001

Temperature detector: Pt100, Class A (IEC 60751)

Protection tube

Material: EN 1.4435.

Signal connection

4-wire configuration, flying leads.
Silicon insulated cable TEXSITW.

Inspection certificate

Sensor output value: Inspection certificate as per EN10204 3.1b
