

Accessories

Compression fitting G1/2"

Model 9043000

Design

Compression fitting in stainless steel EN 1.4404
Connection thread G1/2"

Hex size body:

27 mm

Hex size cap:

13mm, probe diameter 3 - 4.5 mm
17mm, probe diameter 6 mm
30mm, probe diameter 10-15 mm

Example of use

Positioning / sealing of temperature sensors

Specifications

Ferrule, material EN 1.4404
Max. temp. 600°C, leak proof

Adjustable ferrule, material PTFE
Max. temp. 200°C, leak proof at low pressures

Reusable and adjustable ferrule, material EN 1.4404
Max. temp. 600°C, for positioning only, not leak proof
