

Accessories

Compression fitting M10x1

Model 9044600

Design

Compression fitting in stainless steel EN 1.4404
Connection thread M10x1
Hex size body and cap 13 mm

Example of use

Positioning / sealing of temperature sensors

Specifications

Ferrule, material EN 1.4404
Max. temp. 600°C, leak proof

Adjustable ferrule, material PTFE
Max. temp. 200°C, leak proof at low pressures

Reusable and adjustable ferrule, material EN 1.4404
Max. temp. 600°C, for positioning only, not leak proof

Part number	Probe diameter (mm)	Ferrule material	Leak proof	Adjustable
