

4-channel thermocouple indicator with data logger

Dostmann TC 319

Features:

- Memory for 16 000 readings
- Large display for indicating four inputs simultaneously, T1 to T4 (see picture)
- Data logger configuration via Windows software or indicator's keyboard
- Easy to use Windows software
- Indication of difference temperature
- Backlit display

Application profile:

Perfect designed instrument for difference measurements or when there is a measurements documentation requested.

- HVAC
- Laboratory
- Industrial measurements
- Petrochemical industry

Technical data

Temperature sensors	T/C Type K, J, E, T
Range (indicator)	-200 to 1370 °C (Type K)
Resolution	0,1...600 °C
Accuracy	±0,7 % +1 °C
Memory size	16 000 readings
Display	7 segment LCD
Power supply	4x1,5V AA (about 100 h)
Interface	USB connector
Housing	Plastic (ABS)
Dimensions	187 x 75 x 29 mm
Weight	290 g

Part number: 11-40201
