

03-00110 (standard)

03-00115 (miniatyr)

## Accessory Splash protection

### Models 03-00110 and 03-00115

#### Design

Splash protection that is slipped on the connector. Uniting two connectors will require one splash protector per connector. Adjustment to cable diameter by cutting the cone in the proper position.

#### Example of use

To protect connectors at e.g. rinsing.

#### Dimensions and article number

<i>Article no</i>	<i>Suitable connector size</i>	<i>Material</i>	<i>Max. temp.</i>
03-00110	standard	EPDM	120 °C
03-00115	miniature	silikon	230 °C

Cable sheath insulation and sealing cement can limit the temperature range further.
