

Terminal head DANDW

Model 23-00217

Design

Terminal head DANDW with hinged cap. Mounting on the bottom of the terminal head and/or in its cap with two M4 screws at 33 mm center distance.

Example of use

Mounting of up to two transmitters or terminal blocks in process sensors.

Maximum temperature

100 °C

Mounted transmitter will limit the temperature of the terminal head further.

Part number

23-00205

Sealing

Oil consistent rubber

Material

Polyester lacquered (grey) aluminium

Cable gland

2 x M20x1.5

IP Code

IEC 60529 IP54-IP65
