

## Thermocouple Engine exhaust temperature

### Model 8601000, built on order

#### Design

Sheathed thermocouple with swaged probe tip and standard male connector. The metal sheathed thermocouple cable is uninterrupted all the way from measuring junction to the connector. Protection tube of Inconel 600.

#### Example of use

Measuring engine exhaust temperature.

#### Maximum temperature

Probel: 1100 °C  
Armour hose: 600 °C

#### Part number

8601001-002

#### Probe

Type: K  
Class: 1 (IEC 60584-2)  
Measuring junction: isolated

#### Signal connection

Standard male connector  
Colour code according to IEC 60584-3

#### Certificate

Test value: Certificate EN10204 3.1
