

## Thermocouple Temperature sensor with handle

### Model 11-00710

#### Design

Handheld metal-sheathed thermocouple with handle of PA/ABS plastic.

#### Example of use

Temperature sensor for measuring in between packages and cardboard boxes to maintain the cold chain.

#### Temperature range

-50 to 200 °C

#### Probe

Thermocouple type: T  
Measuring junction: Grounded  
Length: 400 mm  
Width: 9 mm

#### Signal connection

PVC-insulated cable with miniature male connector.
