

Machined thermowell

Model 9051105

Design

Thermowell machined from the solid with cleaved nipple in stainless steel EN1.4404.
Compression fitting for 3mm sensor.
Internal pressure tested at 50 Bar.

Example of use

Installation of sensor.

Max temp.

Thermocouple: max 600°
Pt100: max 250°

Part number	Material (EN)
9051005-001	1.4404 or similar (316L)
9051105-002	1.4301
